

Round Table

Global Climate Agreement 2015 and Right to Well-Being
Sustainability: Are we moving from a trade approach to an
integrated one?

Agenda

09:30	<i>"Climate change: the result of an economic model strongly oriented towards trade approach"</i> – Gian Paolo Cesaretti, Simone Cesaretti Foundation
-------	--

Invited Speakers

10:00 – 12:00	<i>"A Football to Be Kicked Around". Climate Refugees and the Wrong of Displacement"</i> – Gianfranco Pellegrino, LUISS
	<i>"Green ICTs for climate change mitigation and energy sustainability: the EU challenge"</i> – Zacharoula S. Andreopoulou, Aristotle University of Thessaloniki
	<i>"Environmental Management: Emission Control Instruments"</i> - Kateryna Kononova, Karazin Kharkiv National University
	<i>"Energy efficiency as option for improving sustainability of agrofood system"</i> – Carlo Alberto Campiotti, Enea Utee
	<i>"Climate Change Impact on Agriculture: Insights from the Main Romanian Croplands"</i> – Florina Bran, University of Bucharest
	<i>"Climate change and water resources: the needs and constraints to adapt"</i> – Giovanni Quaranta, University of Basilicata

Selected papers

14:00 – 16:30	From "egonomy" to the "economy." Sustainability of welfare, harmonious vision of economic life and human action, responsible life (<i>De Feo</i>)
	Managers' remuneration and sustainable performance: visualizing the hidden link in the italian companies (<i>D'Andrea, Vallesi, Montemari</i>)
	Economic impact of climate change on the forest sector: a subjective probabilistic logic application and uncertainty analysis for an Italian case study (<i>Marinelli, Cipollaro, Alampi Sottini</i>)
	Environmental impact reduction in greenhouses heating: biomass-fired absorption heat pump coupled with wood biomass boiler (<i>Bibbiani, Campiotti, Viola</i>)
	Expo 2015 and the fight against climate change: possible compatibility and strategies (<i>De Angelis, Borrelli, Viola, Misso, Cesaretti</i>)
	The role of agricultural policies on environmental sustainability and human health: an explorative analysis in the OECD countries (<i>Pellegrini, Gallo, Contò</i>)
	To visualize the combination between agriculture financial risk and actions to

	take (Vallesi, Manelli)
	A new framework for the assessment of the environmental sustainability of farms (<i>Bertocchi, Gaviglio, De Martino</i>)
	Organic farming, social and cultural innovation to sustainability and climate change (<i>D'Oronzio, Pascarelli</i>)
	Agro-ecological consumerism between system response and glocal reflexivity: the example of organic food consumption (<i>Spillare</i>)

Round table discussion

“Is the last agreement moving from a trade approach to an integrated one?”

Chairman – Dan Boboc

- **Description of the Global Climate Agreement 2015**

Participant:

- Gian Paolo Cesaretti
- Carlo Alberto Campiotti
- Gianfranco Pellegrino
- Zacharoula S. Andreopoulou
- Florina Bran
- Gianni Quaranta
